

System & Network Engineer

PROFESSIONAL SUMMARY

System & Network Engineer with hands-on experience in Microsoft 365, Windows Server, Active Directory, and enterprise network infrastructure. Skilled in designing, deploying, and maintaining secure IT environments across multiple branches. Passionate about continuous learning and committed to growing into an IT Infrastructure Manager and future Chief Information Officer (CIO).

PROFESSIONAL EXPERIENCE

Vietnam Technology & Communications Joint Stock Company (VNTT)

SYSTEM & NETWORK ENGINEER 04/2026 - Present

Managed enterprise IT infrastructure, including Microsoft 365, Windows Server, Active Directory, Microsoft Entra ID, Microsoft Intune, and Azure AD Connect. Designed, deployed, and maintained enterprise network infrastructure using Cisco, Aruba, Ruijie, and FortiGate. Oversaw endpoint security, multi-branch infrastructure deployments, and day-to-day system administration to ensure secure, reliable, and high-performing IT operations.

Sunflower Media Co., Ltd.

IT SUPPORT & NETWORK SPECIALIST 07/2024 - 04/2026

Administered Microsoft 365 services, maintained LAN/WAN infrastructure, managed IT assets, configured network devices, and provided end-user technical support to ensure stable and efficient IT operations.

Srithai Vietnam Co., Ltd.

IT SUPPORT & NETWORK SPECIALIST 01/2024 - 07/2024

Provided technical support for end users, managed Service Desk operations, deployed Microsoft 365 services, administered user accounts, and supported enterprise IT infrastructure.

Linfox Logistics Vietnam Co., Ltd.

IT SUPPORT INTERN 06/2023 - 12/2023

Supported the successful Go-Live of the Warehouse Management System (WMS), managed Microsoft 365 user accounts and licenses, configured Cisco and Aruba network infrastructure, managed IT assets, and provided end-user technical support.

KEY PROJECTS

MICROSOFT 365 MIGRATION

Migrated 400+ mailboxes from MDaemon to Exchange Online. Reduced email downtime during migration. Configured Hybrid Identity and Microsoft Intune.

ACTIVE DIRECTORY INFRASTRUCTURE

Built and managed Active Directory Domain Services. Designed and implemented Group Policy Objects (GPO). Managed enterprise identity and access.

ENTERPRISE NETWORK INFRASTRUCTURE

Designed and deployed enterprise network infrastructure using Cisco, Aruba, Ruijie, and FortiGate. Configured VLANs, VPNs, Routing, Switching, and Firewall policies. Supported multi-branch infrastructure deployment.

ENDPOINT SECURITY

Deployed Kaspersky Endpoint Security across enterprise endpoints. Implemented endpoint security policies and ensured compliance.
